**ENERGYPOINT RESEARCH RELEASES DETAILED RATINGS & ANALYSIS
REPORT ON CUSTOMER SATISFACTION IN THE OILFIELD**

*Comprehensive Findings & Analysis Derived
From Independent Surveys of Qualified Purchasers and Influencers*

HOUSTON (Sept. 17, 2013) -- EnergyPoint Research, the leading provider of customer satisfaction ratings for the oil and gas industry since 2003, announces the release of its newest Oilfield Services Detailed Customer Satisfaction Ratings & Analysis Report. The report provides a comprehensive look at the state of customer satisfaction within today's global drilling and oilfield services markets.

Based on more than 2,000 evaluations completed over two years by qualified purchasers at exploration and production corporations and upstream companies, the ratings and analysis report is the most comprehensive ever published by EnergyPoint, setting a new standard for oilfield customer satisfaction intelligence.

"We are continually conducting independent surveys across the industry to compile opinions and experiences of users regarding a full range of oilfield services," said Doug Sheridan, Managing Director of EnergyPoint Research. "This latest report provides data, analysis and recommendations important to purchasers. It also provides valuable information to drilling and oilfield service providers and stakeholders looking to understand how customers rate major suppliers across various attributes of satisfaction, and how each performs compared to their competitors."

The EnergyPoint Research Detailed Customer Satisfaction Ratings & Analysis Report provides analysis of industry trends, and also examines the perceptions and expectations behind customer satisfaction across more than 50 attributes, regions and industry categories. Ratings of 30 major oilfield services suppliers – including Schlumberger, Halliburton, Baker Hughes, Weatherford International, Transocean, Diamond Offshore, EnSCO, Rowan, Helmerich & Payne, Precision Drilling, Patterson-UTI and many others -- are included in the report.

The 600+ page report is available immediately for purchase as a stand-alone offering or as part of a subscription to the EnergyPoint Research Online Portal, an electronic and customizable gateway to all of EnergyPoint Research's regularly updated ratings and survey results.
